## UST Release Notification Form

***(Completed by the UST Professional and Submitted to DNR UST Section and Owner/Operator)***

A suspected or confirmed release has been identified at your property by your UST professional. Pursuant to Iowa Code section 455B.474 and 567 Iowa Administrative Code (I.A.C.) 135.6(1), **UST system owners and operators are required by law** to report suspected or confirmed releases to the Iowa Department of Natural Resources within 24 hours of discovery, or 6 hours if a hazardous condition exists, unless an exception applies. Please see the Department's Release Guidance at <http://www.iowadnr.gov/land/ust/ustrelease.html> for more information, including a Release Reporting Form.

If a confirmed release has been identified at your property, your UST Professional is required by 567 I.A.C. 134.22 to submit a copy of this form to the Department within seven days of discovery. This secondary submission does NOT excuse the owner/operator from making the initial reporting as discussed above and in the release guidance. Failure to directly report a suspected or confirmed release may result in the Department taking enforcement action against the owner/operator, to include the assessment of a monetary penalty.

For suspected and confirmed releases, notify the Iowa Department of Natural Resources at the number listed at the bottom of this form. For hazardous conditions, notify the Department and your local law enforcement.
